Field of Light

Internationally acclaimed artist Bruce Munro is noted for his immersive site-specific installations that employ light to evoke emotional response, often in an outdoor context and on a monumental scale. The Field of Light was inspired by a trip to Uluru over 30 years ago. It is installed in a remote desert area within sight of majestic Uluru. It is the largest installation to date by Bruce Munro and his team installing more than 50,000 slender solar powered stems crowned with radiant frosted glass spheres. It is truly a magical sight to behold.

Experience this:

The Field of Light

Rise before the sun to travel the short distance to a desert location overlooking Uluru. Your Driver Guide will provide insights and background into this emotive and unique desert art installation. Under the cover of darkness, you're invited to wander through the pathways that encompass the 50,000 spheres of light in colours of ochre, deep violet, blue and gentle white.

Private dune top viewing

Make your way up the hill to the dune top viewing area. Watch the amazing transformation of colours and life as the Red Centre awakens, while enjoying tea, coffee or hot chocolate.

Sunrise over the Red Centre

You'll have an incredible view through stunning desert landscape as the sun rises over the Red Centre. As the natural light brightens the landscape, the Field of Light will dim for the day. Capture some amazing photos from this unique raised location, which allows you to view both Uluru and Kata Tjuta in all their natural glory.
